

Items and Holds Evergreen 3.0 Web Client

Holds

1. You can now search for patrons from the 'place hold' screen instead of having to open a new tab and copy their barcode number!
2. The default columns in the Pull List interface have changed.
3. New patron view of items on hold in OPAC:

Current Items on Hold

-- Actions for selected holds -- [Show all holds](#) | [Show only available holds](#)
